

## NOTICE TO MARKET PARTICIPANTS AND STAKEHOLDERS

Date: October 31, 2012

Re: Measuring Generator Market Power – An assessment undertaken as part of the 2012 State of the Market Report

During 2012, the MSA is undertaking a state of the market report with the purpose of assessing the state of competition within, and the efficiency of, the Alberta wholesale electricity markets. Prior to the state of the market report, the MSA is making a number of preliminary reports available. The MSA is releasing one of these [reports](#), which considers alternative ways to measure generator market power.

Further details about the MSA's state of the market initiative can be found in a Directions paper. Questions or comments can be directed to [stakeholderconsultation@albertamsa.ca](mailto:stakeholderconsultation@albertamsa.ca) or [matt.ayres@albertamsa.ca](mailto:matt.ayres@albertamsa.ca). The MSA expects to release the final state of the market later this year.

We appreciate your participation in these matters.

Regards,
