

NOTICE TO MARKET PARTICIPANTS AND STAKEHOLDERS

Date: June 25, 2012

Re: MSA Compliance Process

The Market Surveillance Administrator is re-publishing its [Compliance Process](#) document to reflect a procedural change that has relevance only to the AESO. Sections 4.3 and 4.8.1 of the document were revised to reflect that the electronic platform used between the AESO, the MSA, and WECC to facilitate Alberta Reliability Standards compliance was transitioned from the WECC compliance portal to webCDMS. Secondly, the Notice of Specified Penalty template for reliability standards (Appendix D) was modified slightly for better applicability to reliability standards matters. With this document revision, we have also taken the opportunity to address a few minor editorial and formatting issues.

Further to section 6 of the document, the MSA considers these changes to consist of consequential amendments and non-material changes, accordingly, the MSA does not intend to conduct stakeholder consultations in respect of these changes.

Regards,

/s/ Doug Doll
