EVENT DETAILS

The Alberta Electric System Operator ("AESO") conducted a scheduled Q3 2012 compliance monitoring audit of Cenovus FCCL Ltd., as Operator for FCCL Partnership ("Cenovus"). The audit period extended from the effective date of the standard (January 13, 2011 for R1) to June 30, 2012. Compliance audit findings for the defined audit period indicated that Cenovus could provide no records to demonstrate training of staff who operate the system in protection system schemes and any RASs applicable within their system. R1 states that the operating personnel of the ISO, TFO's and operators of generating units must each be familiar with the purpose and limitations of protection system schemes applied in its area. The corresponding compliance measure applicable to R1 is the availability of applicable training records indicating training of staff who operate the system in protection system schemes and any RAS applicable within their system.
