EVENT DETAILS

On May 14, 2016 at 22:45, NPC2 received the first of four dispatch instructions for supplemental reserve generation (SUPG), for effect at 23:00 for the HE 24 settlement period. Each of the dispatch instructions timed out without response and at 23:03, NPC2 was manually dispatched for the 9 MW of SUPG. Further information available to the MSA indicated that NPC2 was not equipped to respond to dispatches or provide reserves during off-peak hours and that the offer at issue was submitted in error. ISO rule 205.3 indicates that a pool participant that submits an offer must, as soon as reasonably practicable, submit a restatement to represent the operating state of the pool asset if: a) the pool asset is no longer able to deliver the MW set out in the offer; or b) the pool participant is not able to meet the requirements set out in section 205.6 of the ISO rules.
