### MSA FINDINGS

On April 29, 2024, at approximately 10:58, energy offers were submitted for the CRS3 asset for hours ending (HE) 1 through 24 April 30, 2024. Information available to the MSA indicates that the minimum stable generation (MSG) for CRS3 for the HE 8 throughout HE 23 was affected by the physical unit configuration required to provide spinning reserve. CRS3 did not submit an MSG restatement.

Section 203.3 of the ISO rules states, in part:

5(1) A pool participant that submits an offer must, if there is a change to the minimum stable generation as a result of an acceptable operational reason, submit a minimum stable generation restatement for the source asset for the applicable hours, as soon as practicable.

The MSA is satisfied that the conduct was a contravention of section 203.3 of the ISO rules.
